MCFARLAND JOHNSON ESTABLISHES NEW TECHNOLOGY DIVISION

InfraSolutions by McFarland Johnson to Strengthen Lead of Infrastructure Management Solutions

Binghamton, NY – June 7, 2021 - McFarland Johnson (MJ), a 100% employee-owned planning, engineering, and construction services firm, announces the creation of **InfraSolutions by McFarland Johnson™ (InfraSolutions)**, a new division of McFarland Johnson focused on developing technology-based infrastructure management solutions.

MJ is one of the pioneers in developing infrastructure tools that simplify complex management functions and helps improve the decision-making process for administrators and managers. The firm's legacy [or premiere] Dynamic Analysis Tool (DAT), a patented planning and project management solution, along with the firm's other technology solutions and services will be offered under the new InfraSolutions by McFarland Johnson brand and will continue to be enhanced with new functionality and complimentary tools.

Infrastructure administrators and managers need intuitive and easy-to-use solutions for planning, project management, and decision making to help solve their greatest challenges. "MJ has been a front runner in building technology-based planning solutions, said Chad Nixon, President and Chairman of the Board. "Establishing InfraSolutions by McFarland Johnson reinforces our long-term goals and ongoing commitment to transforming how airport and transportation decision makers view data resources to improve processes and better resolve their most critical issues."

InfraSolutions by McFarland Johnson's dedicated technology team has direct knowledge and experience developing tools specifically for airport and transportation administrators. They understand the wants and needs of every client and develop solutions in a collaborative process to ensure client satisfaction. For additional information on InfraSolutions visit: https://www.mjinfrasolutions.com.

###
